

## **Covid-19 Safety**

### **Information for all visitors**

**Last updated: February 2022**

Thank you for taking a moment to read our approach to managing the risk of Covid-19. In light of the government lifting all legal restrictions, we continue to try and strike the right balance between 'too much' and 'too little' caution.

#### **Face masks**

Wearing a face mask at Beacon House is now optional for our team and all visitors.

#### **If you have symptoms**

If you (or your child) have symptoms that are likely to be Covid-19, we ask that you take a lateral flow test before coming into the clinic.

#### **If you test positive**

If you (or your child) test positive, we ask that you do not come into the clinic until you test negative for two consecutive days, after day 5.

### **If you have had contact with someone with Covid-19**

If you have had contact with someone who has tested positive, including someone you live with, no further action is necessary. If you do develop symptoms, please follow the guidance above.

### **Cancellation policy**

From 1st April 2022 our usual cancellation policy will be re-introduced. This means that if you need to cancel an appointment within two weeks due to any symptoms or illness, you will be charged for the session.

We respectfully ask all our visitors to avoid coming into the clinic if they are unwell, to prevent the transmission of any illnesses to others at Beacon House.

Thank you.
