

The Sunflower

Like the human experience, this design has layers of meaning woven into it.

Throughout Ukraine's history, the flower has been used as a symbol of peace and now more than ever a symbol of solidarity and joining together of people.

Our artist Helen has created a piece of art using the sunflower to honour the Ukrainian people, the hand raised up in the air to symbolise solidarity and the tattooed dove on the hand symbolising the desire for peace and safety for the bodies, hearts and minds of everyone impacted by this conflict.

We will be selling this print through our training page and 100% of the money taken will be donated to the DEC Ukraine Humanitarian Appeal.
Humans standing together for peace.

We hope you love your design.
