

Beacon House Training Services

About Beacon House

Beacon House is a visionary, dynamic and thriving multidisciplinary service based in West Sussex. We aim to offer a high quality, innovative, attachment and trauma informed therapeutic service to children and adults, and their families and networks. Our specialist team of therapists provide assessment and therapy to children, families and adults experiencing a wide range of emotional, relational and sensory difficulties.

We are passionate about bringing attachment and trauma-informed theory to the applied practice of a wide range of practitioners who work with children and young people. Our priority is to disseminate the evidence base in a way that directly maps on to applied practice.

Our online and face to face training blends taught theory with beautiful and bespoke graphics and animations created by our in-house artist and Creative Designer, who also brings lived experience of trauma. We have created unique multi-media content, interactive experiential exercises and live demonstrations to stimulate and engage our learners. Our online packages are additionally accompanied by psycho-education and resource packages exclusive to online learners.

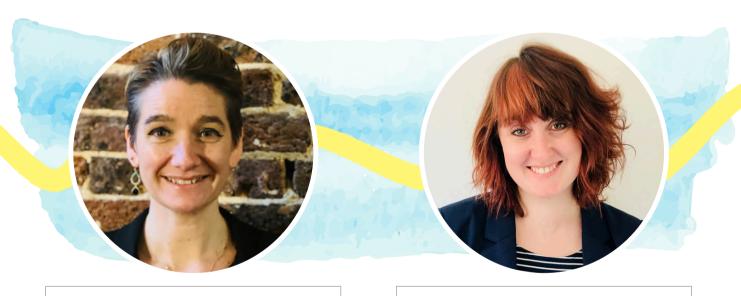

All live and remote training requests are carefully matched to the most suitable specialist in our therapeutic team. Take a look at who we have in our team here:

Our training vision and all training content is overseen by our Clinical Director, Dr Shoshanah Lyons; and all our courses are beautifully curated by our talented in-house artist, Helen Townsend.

Dr Shoshanah Lyons is the clinical director and founder of Beacon House. As a clinical psychologist she feels huge passion for understanding mental health and relationships through a developmental trauma lens. She is a promoter and advocate for trauma-informed health, education, social care and criminal justice.

Helen Townsend is an artist and works at Beacon House as our Creative Designer. Combining inspiration from lived experience with academic training, she is passionate about translating complicated theories into accessible information that can be used in day to day life. As an adoptive parent Helen always aims to ensure ideas are realistic and practical for families.

Training Options

As a service we are incredibly passionate about sharing our experience and knowledge of working with children, families and adults who have experienced early trauma and adversity. We have an exciting and innovative training offer designed with professionals, families and adults in mind. Training can be delivered:

- In person commissioned by teams or organisations who can provide a venue
- As live remote training via Zoom for up to 200 participants
- Via our creative and beautiful range of online training courses which can be found here:
 https://beaconhouse.org.uk/training/
- Our webinar and workshop programme. See here for more information.
